+91-6399851956 | adhikarideepak719@gmail.com | [LinkedIn](#) | [GitHub](#)

Summary

Backend developer skilled in Python, Django, and Django REST Framework with experience building secure REST APIs and authentication systems. Familiar with Git, GitHub, Postman, and database integration.

Technical Skills

Programming Languages : Python, JavaScript

Frontend : HTML5, CSS3, Tailwind CSS, JavaScript, React.js

Backend : Node.js, Express.js, Django, Django Rest Framework, REST API Development

Databases : PostgreSQL, SQLite,

Web and Api Concepts : RESTful APIs, Token Authentication, JSON, API Testing, HTTP Methods

Developer Tools : Git, GitHub, VS Code, Postman

Projects

AI Study Helper - Full Stack AI Web App

Nov 2025

Tech Stack: JavaScript, Node.js, Express.js, REST API, HTML5, CSS3, Google Gemini API | [Live Demo](#) | [GitHub](#)

- Built a AI-powered web app that generates simplified explanations and bullet-point summaries.
- Integrated Google Gemini API for real-time AI-generated educational content.
- Implemented RESTful APIs using Node.js and Express.
- Deployed frontend on Netlify and backend on Render.

Scalable Job Portal Backend (Django REST + PostgreSQL)

Feb 2026

Tech Stack: Python, Django REST Framework, PostgreSQL, JWT, Gunicorn, Render, Git | [Live API \(Swagger\)](#)

- Built and deployed a production-ready REST API for a role-based job portal (Recruiter & Job Seeker).
- Implemented JWT authentication, secure endpoints, and job/application workflows.
- Integrated PostgreSQL with environment-based configuration.
- Deployed on Render using Gunicorn with live Swagger documentation.

Django Authentication API | Django, Django REST Framework

Jan 2026

Tech Stack: Python, Django, Django REST Framework, SQLite, Postman, Git & GitHub | [GitHub](#)

- Developed a secure RESTful Authentication API using Django REST Framework
- Implemented user registration, login, profile, password change, and password reset via email
- Used token-based authentication to protect user endpoints and ensure secure access
- Tested all API endpoints using Postman and documented them with a Postman collection
- Managed environment variables and dependencies using .env and requirements.txt

Work experience

Project-Based Web Development training (Remote)

Jun-Jul 2025

Vault of Codes (Remote) | [Certificate](#)

- Designed and deployed 4+ responsive web pages, improving load performance and usability.
- Utilized Git and GitHub for version control and team collaboration, ensuring seamless project workflow.
- Worked on small hands-on tasks focused on UI structure and responsiveness.

Education

Bachelors of Computer's Applications (BCA)

2022 - 2025

Amrapali Group of Institutes, Haldwani

Certifications

- AI for Beginners – HP LIFE (HP Foundation)- [Certificate](#) july (2025)
- JavaScript Fundamentals to Advanced: Full Stack Development – [Certificate](#) july (2025)
